The 20W rechargeable LED flood light is installed with die-cast aluminum alloy light body and toughened glass cover, which are conducive to the good durability and optimal heat dissipation performance of the product. Conforming to IP65 protection level, our high power LED flood light is capable of saving 60% energy for the users, compared with the traditional LED lighting fixture. Taking 1 piece of integrated high power COB LED as the light source, the service life of the 20W rechargeable LED flood light is up to 50,000 hours. This outdoor LED light is RoHS and CE compliant

Input voltage	50/60Hz
Max. current	2A
Charging time	5 hours
Working time	3 hours
LED type	LED
LED quantity	1pc
Power	20W
Housing color	Yellow
temperature	-20-50°C
Net weight	2.2kg
Gross weight	2.4kg
White box size	232×206×230mm
Package size	419.5X467MM
Total weight	19.82kg
